-

Experience

Front End Developer

Lamsta @ Kochi, Kerala

05/2023 - 06/2023

- Developed interactive and responsive user interfaces using Next.js, HTML, CSS, and JavaScript.
 - Collaborated with designers and backend developers to implement UI/UX designs and ensure seamless integration with the backend.
 - Successfully delivered projects within specified timelines, meeting or exceeding client expectations.
 - Continuously stayed updated with the latest frontend technologies and trends, incorporating them into projects to enhance functionality and user experience.
-

Projects

Hostel Mess Management System

[Live Demo](#)

<https://github.com/ajuroshan/messy/>

- Developed a comprehensive hostel mess management system using Django, allowing students to apply for mess cuts, mark attendance via QR codes, view and pay mess bills, and check weekly menus.
- Implemented user-friendly interfaces with a responsive design, improving the overall experience for students and mess staff.
- Integrated QR code functionality for attendance tracking, ensuring efficient management of meal attendance.
- Deployed the application successfully, which is live at messy.cusat.live.

CUSAT University Hostels

[Hostels Portal](#)

- Performed server maintenance and managed the allotment process for the CUSAT university hostels.
- Ensured optimal performance and security of the server, contributing to the smooth functioning of the hostel allotment system.
- Worked on streamlining the backend processes to enhance user experience and operational efficiency for the administration.

Education

Electronics and Communication Engineering

Cochin University of Science and Technology • Kochi, Kerala

04/2026
